

Joan Wakaria,
Human Resource & Admin Assistant,
Software Technologies Limited,
Nairobi, Nairobi County, Kenya

Dear Joan Wakaria,

RE: Application for a software development internship at Software Technologies Limited

My name is Juliet Olieng, and I am an entry-level software developer. I am thrilled to apply for the software development internship position at Software Technologies Limited.

I am especially impressed by STL's impressive 27+ years of pioneering experience, which reflects a rich heritage of innovation and depth of capabilities. I am excited at the prospect of learning from the best in the industry and being a part of a team that consistently delivers value to its customers.

I am looking forward to the opportunity to contribute my skills, learn from your talented team, and help STL continue its mission to provide top-notch software solutions. I am excited about the potential to make a real impact as an intern at your company.

Currently, I am working collaboratively with a team of four on a groundbreaking project that aims to improve the accuracy of the early warning system in disaster-prone areas. This project has provided me with valuable experience in developing user-centric solutions that address real-world challenges.

Thank you for considering my application.

I look forward to hearing from you.

Sincerely,

Juliet Olieng
